Work Experience

Frontend Developer - Freelance June 2019 – Present

- Developed and deployed number of full stack applications using React, Node, Express, JavaScript, jQuery, MongoDB and PostgreSQL
- Built a good level of Vanilla JavaScript, HTML and CSS by making interactive, visually attractive and fully functional front-end applications and websites
- Heroku and Netlify
- Regularly attended industry meetups, completed multiple courses and generally dedicated all my time to learning new concepts and staying up to date via forums, podcasts, social media and blogs
- Active member of Founders and Coders and Free Code Camp Community
- Performed small jobs within Wordpress, Deployment, Design etc

Full Stack Developer - Founders and Coders March 2020 – Present

- Student and mentor of one of the top full stack bootcamps in London
- Project based learning using CSS, HTML, Vanilla JS, React, NodeJS, Express, PostgreSQL
- Agile methodology, weekly sprints, kanban board planning, git and github, pair programming
- Building full stack applications
- Testing and deployment (also CLI)
- Mentoring of new students during weekly meetups

Founder - Maria Sabina May 2015 June 2019

- I designed our website and maintained a social media presence and advertising.
- I have built, ran and sold a small street-food restaurant. I covered all admin, finance, business development, people management/HR, marketing and supplier management with my partner covering the remaining.

Recruiter - Sky plc September 2013 - June 2015

- I covered areas of Technology and then Sales and Marketing
- Managed multiple stakeholders and their expectations.
- Built a strong social media presence through LinkedIn, Twitter and Google Plus
- Managed candidates pre and post onboarding
- Built a strong understanding of corporate technology sector and some Agile practices

Business Development Executive - GBI Research March 2013 - September 2013

Sales Development Executive - MSC Cruises

May 2010 - June 2015
